Textile World

INDEX TO VOLUME 109
January–December, 1959

McGraw-Hill Publishing Co., Inc.
330 West 42nd Street, New York 36, New York

A

Air conditioning and related equipment
- Air conditioning helps Greenwood Mills, New — Dec. 60
- Air cleaners, Electronic — Nov. 164
- Air filter — Oct. 122
- Air filter, Renewable-media — Aug. 163
- Atomizer, Water-pressure — Feb. 106
- Engineering — modernization 1959 — Oct. 61
- Humidifier — May 156
- Humidifier, Self-contained — Dec. 128
- Lint problem in central-station air washers, Chicopee solves — June 50
- Loads, Six heat sources determine air-conditioning — Mid-July 177
- Ventilating fans, Operating — Mid-July 178

Alabama Textile Operating Executives
- Bobbin build, Spinners' chief topic is — Jan. 58
- Fixers to supervisors, Two Alabama weaving mills upgrade — July 53
- Flyers and sliver cans, Alabama mills like big — Jan. 56
- Granular carding interests Alabama operating executives — Dec. 55
- Rings and travelers feature Alabama spinning discussion — Dec. 54
- Slashing equipment improves 17 Alabama mills, Better — July 52

American Assn. of Textile Chemists & Colorists
- AATCC Convention, 38th annual — Nov. 95
- AATCC papers — Nov. 95

American Textile Machinery Exhibition
- Atlantic City show, Plans under way for 1960 — Jan. 5

B

Bast fibers
- Jute-bagging venture, U.S. company joins — Nov. 9
- Kenaf fiber in Cuba — Feb. 8
- Versatility spells success for Western Piece Dyers, Inc. — Feb. 77

Building construction and maintenance
- Building-material costs for plant construction — Nov. 68
- Floor, finish — Mar. 178
- Floor, plastic — Aug. 164
- Floor-surfacing plate — May 174
- Floor treatment — Aug. 164
- Flooring lasts longer, Correctly chosen — Mid-July 176
- Floors, Scrubber-vacuum for — Sept. 188
- Glass frosting — Mar. 174
- Hardwood flooring right to control excess expansion, Lay — Jan. 142
- Paint-spraying system — Aug. 142 — Dec. 132
- Painting trends, Modern — Sept. 54
- Putty is carried pickaback on regular cans of paint — Apr. 139
- Roof, coating — Sept. 214
- Surface coating — Aug. 166
- Surfacing material — Mar. 180
- Wall, Glass-tile — July 157

Bulk yarns
- Ban-Lon tricot fabrics — May 137
- Bulk-yarn knitting machine — July 118
- High-bulk Orlon, How to card — Mar. 20
- Taslan-spun Orlon yarns — May 138
- Textured-yarn machine — June 129
- Textured-yarn production is increased at Belmont — Sept. 60

C

Carpets — See under Cotton, Synthetics, Wool, Tufting, etc.
- Backing, Double-bonded carpet — Oct. 114
- Backing, Laminated carpet — Feb. 109
- Card cutter, Carpet-loom — Feb. 106
- Carpet rolls, Roller skates are used to move — July 112
- Carpet scraps into useful items, Convert — June 20
- Circular knitting machine — Dec. 126
- Clinics, Carpet — Feb. 110
- Fourth quarter, Carpet mills enjoyed a soaring — Apr. 4
- Latex curing at Wunda Weve, Better — Apr. 101
- Latex, What to look for in — July 93
- Novelty yarn is used in tufted carpets — Apr. 20
- Rubber-backed carpet, New — Dec. 118
- Rug-backing formulas, Here are two basic — Feb. 136
- Rug shear, Portable — July 127
- Tufting machines are used, How — Mid-July 53
- Tufting — modernization 1959 — Oct. 57
- Woven-carpet mill reaches peak efficiency, Modern — July 54

Chemical treatment and furnishing
- Basic chemistry of dyes and dyeing, The
  - I. Color, raw materials, intermediates — Mar. 95
  - II. Acid dyes and premetallized acid dyes — Apr. 109
  - III. Mordant dyes — May 97
  - IV. Basic, disperse, and natural dyes — June 91
  - V. Direct and sulfur dyes — July 85
  - VI. Vat dyes — Aug. 85
  - VII. Ingrain, azoic, and solvent-soluble dyes; pigments, brightening agents, etc. — Sept. 153
- Brine control system — Sept. 192
- Business swings, Textile finishers in strong — Mar. 73
- Carriers, New light on dye — Mar. 70
- Chemical-Finishing Conference, Highlights from the 8th — Nov. 87
- Coated-fabrics shipments dropped sharply in 1958 — Apr. 5
- Continuous dyeing, Solvents aid — Sept. 117
- Crocking, How to forestall — Dec. 102
- Curing oven, Roller — Oct. 124
- Dilution with Pearson's square, Figure — Mid-July 123
- Drip-dry finish, Causticizing improves — Nov. 83
- Drying-curing unit — Dec. 126
- Dyeing machine, Automatic — May 148
- Dyeing machine, Rotary — May 154
- Dyeing methods, New vat and sulfur — Aug. 61
- Electricity speeds dyeing, Russians report — Oct. 67
- Enzymes on sizing materials, The action of (Preparation and bleaching 4) — July 73
- Epoxy resin bonds vinyl to fabric — June 66
- Finishing (at Milan Show) — Nov. 64
- Fire resistance, Amine provides — June 67
- Fixatives have antistatic properties, Dye — May 70
- Formaldehyde absorption affects finish — July 63
- Formaldehyde affects cellulose, How — Apr. 86
- Hydrogen peroxide (100 vol.) conversion chart — Mid-July 111
- Hydrophobic fibers, Accelerant dyeing of — Nov. 97
- Ice colors, Phosphates improve — Dec. 67
- Inhibitors cut chlorine-dioxide losses — Sept. 115
- J-box, Flared — Mar. 136
- J-boxes, Glass-fiber-and-resin — Nov. 158
- Ketones cut brittling effect of resins — Aug. 63
- Latices for nonwovens — Mid-July 54
- Latex, What to look for in — July 93
- Level-dyeing colors, New test pegs — Aug. 63
- Level selvages, Covers or different dyes may help — Aug. 20
- Market, A new dye works finds its — Apr. 92
- Metallic powders, Tips on printing with — June 73
- Metallic-yarn wet-processing guide — Mid-July 124
- Mixer, Variable-speed — Dec. 132
- Nylon strainers — Aug. 149
- Odors, New process eliminates — Mar. 70
- Optical whites, High temperatures improve — Oct. 68
- Organo-tin compounds, Added uses for — May 70
- Oxidizing agents — Mid-July 112
- Package dyeing, Tips on — Mid-July 111
- Peroxide baths, Magnesium salts stabilize — Nov. 84
- Peroxide-bleaching solutions, Testing — Mid-July 109
- pH curves of common acids, bases, and salts — Mid-July 126
- pH in textile processing — Mid-July 120
- Pigment binders, Acrylic esters improve — Dec. 69
- Pigment binding, Copolymers improve — May 71
- Pile-fabric finish, New — July 134
- Predryer — June 136
- Preparation and bleaching
  1. The cotton fiber — Apr. 97
  2. Fiber structure affects processing — May 83
  3. Sizing materials and how removed — June 82
  4. Action of enzymes on sizes — July 73
  5. How preparation methods developed — Aug. 74
  6. The scouring process — Sept. 131
  7. Principal bleaching materials and methods — Dec. 85
- Print pastes, Higher urea content improves — Mar. 70
- Print-register control — June 136
- Quality and volume, How Dan River's Div. No. 3 maintains — Dec. 76 — Dec. 76
- Resin finishing, Built-in catalyst aids — June 67
- Rot resistance to cotton, Acid colloids give — July 20
- Rubber-roll troubles and suggestions for treatment, Common — Mid-July 123
- Rubber rolls, How to crown — Mid-July 121
- Scray, Automatic cloth — June 132
- Separation system, Dialysis — May 176
- Shaded edges, Check dyes and mercerizing to overcome — Oct. 20
- Shrinkproof wool, Use caustic soda to — Sept. 125
- Soap makers get tips — Mar. 69
- Softening saves money, Two-stage — June 65
- Soil removal, Polarity affects — Sept. 116
- Soda bleach liquors, Preparation of — Mid-July 107
- South continues to gain in chemical treatment and finishing — Dec. 71
- Spray finishing gets tryouts — Apr. 85
- Spray finishing, More data on — Dec. 69
- Stability, Combined chemicals improve rayon — Dec. 67
- Stain-repellent fabrics — July 133
- Sterilize fibers, Cobalt 60 to be used to — July 63
- Sulfated oils and tallow, How to make — Mid-July 117
- Sulfur-dye waste liquor, treatment for — May 70
- Surfactants for textile processing — Mid-July 122
- System simplifies Carolina Mills dyeing operation, Good — Sept. 120
- Thermosol process works for Dacron-cotton blends, How the — Nov. 99
- Tips from the London Congress of Chemists and Colorists — Nov. 83
- Twist-detecting switch — Apr. 149
- Ultrasonic waves speed dyeing — June 66
- Vat dyes for union shades on Zefran-cotton blends, Use — Nov. 99
- Vat dyeing, How soaping affects, — Aug. 62
- Vat-dyeing problems discussed — Oct. 67
- Water repellency, Titanic acid boosts — Apr. 87
- Wash-and-wear needs reviewed — May 69
- Wash-and-wear process, New non-resin — Mar. 69
- Wheat flour shows promise, Modified — Aug. 62

Cleaning
- Cleaner, Motorless — Oct. 142
- Cleaner, Ultrasonic — Mar. 172
- Cleaning compound — Apr. 148
- Filling-fork prongs with an abrasive eraser, Clean — Mar. 122
- Knitting machines, Two ways to clean — July 22
- Knitting room, Use napper-cloth broom to clean — Jan. 90
- Lint and dust, Cleaner for — Feb. 134
- Lint problem in central-station air washers, Chicopee solves — June 50
- Plant-cleaning system, Organizing and maintaining a — Apr. 177 — Apr. 177
- Scrubber-vacuum for floors — Sept. 188
- Sweeper, Battery-powered — July 125
- Sweeper, Heavy-duty — June 134
- Traveler-cleaner gauge, How to make a good — Jan. 90
- Ultrasonic cleaning cleans parts without harm, New — Mid-July 165
- Vacuum cleaner, Traveling — Feb. 104
- Yarn cost cut to the bone, At Russell Mfg. Co. — Feb. 68

Cloth room
- Cloth-grading system — Mid-July 55
- Cloth room — modernization 1959 — Oct. 61
- Labor saving in cloth rooms — Mid-July 55
- Measurer, Cloth-width — Aug. 148

Cotton (general)
- Argentine cotton crop off 40.5% this year — Aug. 8
- British cotton industry to get drastic overhaul — June 6
- Consumption will be up in 1959, Cotton — Mar. 5
- Cotton-mill waste down 4.9%, 200-mill survey shows — May 65
- Cotton program gathers new strength, 1959 — Sept. 7
- Cotton scored 1958 gains on competitive fibers — Aug. 5
- Cotton-subsidy increase to aggravate mill problems — July 8
- Cotton-textile imports — the battle tempo steps up — Aug. 4
- Fiber identification, FTC issues rules for — July 43
- Modernizes yarn machinery, Gastonia's oldest mill — May 61
- Mothers prefer cotton — Apr. 126
- Pakistan cotton mills, U.S. finances modernization of — Nov. 4
- Philippines join program to increase cotton use — Aug. 4
- Print cloths, Glenwood Mills modernizes to make fine — May 52
- Russia, U. S. cotton team reports on — July 7
- Static, How cotton mills combat — Feb. 24
- Selection and training, What mills say about — Feb. 58
- Support price has little effect on mills, New cotton — Oct. 4
- Wash-and-wear cottons — Oct. 4 — June 107

Cotton bleaching
- Better cotton bleaching, Combine chlorine and peroxide for — Mid-July 108
- Bleaching, dyeing, finishing — modernization 1959 — Oct. 77
- Bleaching — modernization 1959 — Oct. 71
- Bleaching, What's new in — Nov. 97
- Caustic boil, Per-acids replace — July 64
- Continuous bleaching, Buck sour speeds — Mar. 70
- Continuous bleaching with silicate-free peroxide — Mid-July 109
- Cotton strength, How pH of bleach bath affects — Mid-July 111
- Hydrogen-peroxide bleaching — Mid-July 110
- Modern bleaching methods: a comparison — Mid-July 110
- Peroxide behavior studied — May 70
- Preparation & bleaching (a TEXTILE WORLD refresher) — 1. Apr. 97; 2. May 83; 3. June 82; 4. July 73; 5. Aug. 74; 6. Sept. 131 — Dec. 85
- Processing in Lowell Bleachery South, A look at — May 78
- Soda bleach liquors, Preparation of — Mid-July 107

Cotton blending
- Cotton Research Clinic, Blending and carding highlight — July 45
- Cottons can be blended successfully, Coarse and fine — Aug. 53
- Fiber variation, Massive cotton blending reduces — July 47
- Nylon-and-cotton blends, How Beaumont processes 420 — Apr. 59
- Opening, picking, blending — modernization 1959 — Oct. 48

Cotton carding
- Calculations are easy with these tables, Card-room — June 56
- Calculations, Tables for card-room — Mid-July 32
- Card, Improved — Jan. 95
- Card clothing dry, Packing crate is used to keep — July 106
- Carders praise big laps and fast drawing, Georgia — July 57
- Carding (at Milan Show) — Nov. 53
- Carding at Borden, New machinery and kinks improve — Jan. 60
- Carding, combing, drawing, roving — modernization 1959 — Oct. 49
- Carding machine, Soviets claim new — Sept. 9
- Clothe cards, How to (Card-grinder training) — Sept. 56
- Constant carding — July 122
- Cotton Research Clinic, Blending and carding highlight — July 45
- Dont's for carders, Nine — Mid-July 28
- Draft-gear table for cards — Mid-July 29
- Flat brush — Jan. 100
- Flatless card — May 148
- Flyers and sliver cans, Alabama mills like big — Jan. 56
- Granular card operates without revolving flats — July 45
- Granular card top — July 126
- Granular carding interests Alabama operating executives — Dec. 55
- Gearing, Variation in card sliver is traced to bad — Mar. 61
- Main-cylinder bearings — rework or replace? — Feb. 66
- Neps in the card web, How to count — Mar. 183
- Nylon-and-cotton blends, How Beaumont processes 420 — Apr. 59
- Overhauling cards, Checklist is useful in — Sept. 20
- SRRL card reduces waste, Avondale tests show — July 46

Cotton combing
- Carding, combing, drawing, roving — modernization 1959 — Oct. 49
- Comber settings reduce noils 2.6%, NCS — July 48
- Comber sliver from breaking in pan, Brake keeps — May 128
- Cotton comber — Nov. 157
- Graph for combing, Cotton fiber — Mid-July 31
- High-production comber — Sept. 186
- Lapping and combing (at Milan Show) — Nov. 56

Cotton drawing
- Calculations are easy with these tables, Card-room — June 56
- Carders praise big laps and fast drawing, Georgia — July 57
- Carding, combing, drawing, roving — modernization 1959 — Oct. 49
- Coiler trumpet keep fly out of sliver, Holes in — Oct. 108
- Drawing (at Milan Show) — Nov. 55
- Drawing frame, High-speed — Jan. 95
- Drawing frame, Improved — Dec. 126

Lap-preparation machine ... May 146
Sliver lapper ... July 124
Spends $1-million to gain new markets, Fulton ... Dec. 56

Cotton dyeing
Basic chemistry of dyes & dyeing (a TEXTILE WORLD refresher) – I. Mar. 95; II. Apr. 109; III. May 97; IV. June 91; V. July 85; VI. Aug. 85; VII. ... Sept. 153
Big-batch dyeing solves many problems ... July 67
Bleaching, dyeing, finishing-modernization 1959 ... Oct. 77
Continuous-dyeing range ... Jan. 96
Dye specks with this screen, Eliminate ... Feb. 91
Dyeing and printing – modernization 1959 ... Oct. 71
Processing in Lowell Bleachery South, A look at ... May 78
System simplifies Carolina Mills dyeing operation, Good ... Sept. 120

Cotton fabrics
Combed-cotton shirting, How Joanna makes ... Feb. 67
Corduroy, Loom motions cause cracks in ... Nov. 20
Fabric designs, Pointers for correcting ... Apr. 64
Ginning on chemically treated fabrics, Effect of ... Aug. 51
Markets for old fabrics, New ... Mar. 85
Resin finishes, Effect of curing conditions on ... Mid-July 118
Tobacco cloth, V-groove in stop-motion bar makes better ... Dec. 107
USDA seeks better cottons ... Aug. 121
Wash-and-wear cottons, Yardage and quality up for ... Dec. 68

Cotton fiber
Aminization, New cost study on ... July 65
Cotton clinic, Fiber and yarn research spurs interest at ... Aug. 50
Cotton-gin practices increase mill costs ... June 9
Cottons can be blended successfully, Coarse and fine ... Aug. 53
Crop, Choice B cotton to be 22% of ... May 7
Egypt frees cotton from Soviet barter ... Nov. 5
Fiber structure affects cotton processing, How (Preparation and Bleaching 2) ... May 83
Ginning on chemically treated fabrics, Effect of ... Aug. 51
Ginning practices to be upgraded by USDA, Cotton ... July 6
Improves cotton, Low-cost process ... Dec. 68
Mid-South cotton, 1958 ... Feb. 63
1958 cotton, What you can expect from ... Mar. 56
Overginned cotton increases labor and processing costs ... Aug. 50
Properties vary widely during five-year period, Cotton ... Mar. 57
Short fibers are harmful to yarn and fabric ... Aug. 52
Southeastern cotton has good average qualities, 1958 ... Jan. 63
South Texas cotton – good quality, high yield ... Dec. 48
Study of PA cotton, USDA ... Sept. 169
Resin improves rot resistance of cotton ... June 65
Rio Grande produces good crop of 1959 cotton ... Nov. 70

Cotton finishing
Adaptability pays off for Lanett Bleachery ... Aug. 66
Bleaching, dyeing, finishing – modernization 1959 ... Oct. 77
Chlorine damage to cottons, New resin cuts ... Sept. 117
Curing costs cut with auxiliary heat ... Jan. 81
Epoxy resins show improved effects, New ... Nov. 91
Finishes may reduce sulfur dyes ... Dec. 99
Finishing – modernization 1959 ... Oct. 73
Flannels, How to print cotton ... Mar. 83
Flash-ageing method, New ... Jan. 71
Markets for old fabrics, New ... Mar. 85
Nappers work – and how to work them, How ... Mid-July 115
Process control – modernization 1959 ... Oct. 85
Quality and volume, How Dan River's Div. No. 3 maintains ... Dec. 76
Sizing materials and how they are removed (Preparation and bleaching 3) ... June 82
Streamlines plant, Sayles finishing ... Mar. 78
Resins are deposited in fabric, How ... Nov. 93
Rethread time, Feeler and mercury switch cut down ... Mar. 126
Roll-storage rack ... Mar. 140
Tramp-iron problem, Saylesville bleachery licks licks the ... July 81
Water repellency, Silicone alloys improve ... Nov. 93

Cotton opening
Carders praise big laps and fast drawing, Georgia ... July 57
Improved opening machine ... July 123
Opening, picking, blending – modernization 1959 ... Oct. 48

Cotton picking
Carders praise big laps and fast drawing, Georgia ... July 57
Carding at Borden, New machinery and kinks improve ... Jan. 60
Opening, picking, blending – modernization 1959 ... Oct. 48
Overhauling pickers, Checklist for ... Mid-July 27
Picker beaters vary from mill to mill ... Oct. 20
Picker calender rolls, Yardage table for high-compression ... Mid-July 27
Picker clutch ... Feb. 104
Picker-lap variation, Charts help control ... Sept. 62
Picker-lap variation, 14 causes of ... Mid-July 27
Picker laps, Air cylinder pulls pins from ... Apr. 176

Cotton printing
Aniline black successfully, How to print ... Jan. 73
Aniline black, Tips on printing ... Mid-July 114
Awning ducks, How Bouton-Foster prints ... Feb. 80
Crocking, How to forestall ... Dec. 102
Curing costs cut with auxiliary heat ... Jan. 81
Dyeing and printing – modernization 1959 ... Oct. 71
Flannels, How to print cotton ... Mar. 83
Imprinter, Small-lot ... Nov. 162
Metallic powders, Tips on printing with ... June 73
Pigment-printing methods, Apply vats by ... Dec. 69
Pigment-printing system, How to choose a ... Aug. 71
Pigment prints, Reactive binders improve ... Sept. 115
Print pastes, Complex phosphates improve ... Jan. 70
Print-shop production, How Carlisle Finishing Co. checks ... June 98
Screen printers, Automatic (at Milan Show) ... Nov. 65
Screen-printing machine ... July 125
Screen prints, How Gsell Printing Co. produces ... Apr. 114
Soluble-vat prints, Brighter ... July 63

Cotton roving
Bobbin, Extra-large roving ... June 132
Carders praise big laps and fast drawing, Georgia ... July 57
Carding, combing, drawing, roving – modernization 1959 ... Oct. 49
Flyers and sliver cans, Alabama mills like big ... Jan. 56
Modernizes yarn machinery, Gastonia's oldest mill ... May 61
Production formula for roving ... Mid-July 32
Roving (at Milan Show) ... Nov. 57
Roving frame, Improved ... May 146
Spends $1-million to gain new markets, Fulton ... Dec. 56
Twist nomograph, Combed-roving ... Mid-July 32

Cotton sizing
Cooker, Slasher-size ... Mar. 136
Size-making system ... Nov. 157
Sizing materials and how they are removed – Preparation and bleaching 3 ... June 82
Slasher-size control ... July 127

Cotton spinning and twisting
Bobbin build, Spinners' chief topic is ... Jan. 58
Bolster cleaning easy, Rubber tube on suction pump makes ... Oct. 107
Breaking-strength charts, Yarn ... Mid-July 21
Change-over, Drafting ... Dec. 130
Change-over for Z-spinning ... Aug. 142
Cost data has five elements, Spinning ... Feb. 22
Cut yarn at spinning, Many factors can cause ... Nov. 186
Direct spinning – test frame at Coats & Clark shows considerable promise ... Aug. 45
Doffer, Automatic frame ... Aug. 149
Doffing machine, Automatic ... May 145
Drafting system better, Modified clearers clean ... Feb. 94
Ends down from small-lot tests, How to predict ... Mar. 63
Ends down the easy way, Count ... June 52
Ends down, Signal system indicates location of ... Oct. 105
Fixers learn job, Wooden spinning frame helps ... Nov. 133
Hard-twist spun yarn is best for butcher's twine ... May 22
Improves yarn quality, At Indian Head Mills – preventive maintenance ... May 64
Modernizes yarn machinery, Gastonia's oldest mill ... May 61
Quilled filling pays off in cost savings and quality ... Mar. 22
"Ratio-delay" cuts spinning cost ... June 53
Ring-rail position, Gauge indicates correct ... Apr. 135
Ring size, traveler, speed, and tension ... Mid-July 35
Rings and travelers feature Alabama spinning discussion ... Dec. 54
Rolls and aprons feature Georgia spinning forum ... July 58
Senarators, Uneven tension in spinning is caused by ... May 54
Short fibers are harmful to yarn and fabric ... Aug. 52
Soft carded yarn, How Borden Mfg. Co. spins ... Mar. 54
Spends $1-million to gain new markets, Fulton ... Dec. 56
Spindle bearing is changed to ball bearing, Plain ... Aug. 136
Spinning (at Milan Show) ... Nov. 58
Spinning cam ... Apr. 154
Spinning – modernization 1959 ... Oct. 51
Spinning-twist contraction – table for determining draft change gears ... Mid-July 37
Strength, Cotton-yarn ... Mid-July 24
Strength, Twist multipliers for maximum skein ... Mid-July 35
Supervisory Practices compare in different mills, How ... Feb. 55
Top-roll arm, Spinning ... Apr. 148
Tangling, Polyethylene film keeps ends from ... May 126
Traveler weights, How to calculate ... Jan. 64
Twister ... Feb. 102
Variation in yarn, Roll slippage causes ... Sept. 51
Waste is removed by fast-turning spindle ... June 122
Yarn cost cut to the bone, at Russell Mfg. Co. ... Feb. 68

Cotton warp preparation and beaming
High-twist warps straight, Steel yoke at slasher keeps ... Mar. 126
Machine speed, South Carolina weavers increase ... June 51
Masking tape holds ends at start of new warp ... Dec. 108
Nylon-and-cotton blends, How Beaumont processes 420 ... Apr. 59
Preventive maintenance cuts cost at spooler and warper ... June 49
Rolled ends on beams, High-speed slashing causes ... Dec. 20
Sizing materials and how they are removed – Preparation and bleaching 3 ... June 82
Slasher squeeze-roll cover ... Aug. 144
Slasher, Three-unit ... Sept. 188
Slashers, Checklist for ... Mid-July 41
Slashing colored warps requires special equipment ... Aug. 55
Slashing equipment improves 17 Alabama mills, Better ... July 52
Slashing – modernization 1959 ... Oct. 53
Slashing practices, Georgia mills standardize for better ... Dec. 62
Spooler parts, Catalog system locates B-C ... Sept. 180
Traverse in warping, This gauge determines rate of ... July 105
Trident boards cut replacement cost 80%, Plywood ... Feb. 90
Warper angle of incline, Gauge helps maintain ... Dec. 107
Warps, Overwaxing cotton ... Mid-July 42
Waste yarn, Georgia slashing men reduce ... Jan. 60
Wide denims, Avondale changes machinery to produce ... Mar. 66
Yarn stretch, Marks on slasher beams help control ... Aug. 134

Cotton weaving
Batteryhands, How to set jobloads for ... Mar. 60
Break-outs weave in, Removing stop-motion wires lets ... Mar. 124
Change looms from cotton to spun rayon, How to ... Oct. 22
Clean, Cover for loom dobby keeps fabric ... July 110
Combed-cotton shirting, How Joanna makes ... Feb. 67
Cross-twill effects, How to reduce ... Oct. 152
Dobby for pile fabrics ... Jan. 100
Fabric designs, Pointers for correcting ... Apr. 64
Filling-handling system cuts batteryhand cost 40%, New ... Aug. 49
Fixers to supervisors, Two Alabama weaving mills upgrade ... July 53
Harness stands under loom help prevent break-outs ... Feb. 89
Improve weaving with better work practices, Georgia mills ... Dec. 59
Jacquard designs, Electronics at weaving mills punches ... June 59
Loom rebuilding pays off at Avondale ... Jan. 57
Loom shipper crank ... Oct. 121
Loom winder, Yarn guides for ... Oct. 128
Loom winders, Georgia weave-room men give results with ... Jan. 54
Loomfixer-supply system keeps Joanna looms running ... May 55
Mispicks, Misplaced filling yarn is caused by ... May 24
Nylon-and-cotton blends, How Beaumont processes 420 ... Apr. 59
Pick-and-pick fabrics are made with temple knife ... Oct. 105
Pickers, Increase the life of loom ... Mid-July 43
Shuttleless loom, Draper ... Feb. 97
Shuttleless loom, Maxbo ... Aug. 141
Shuttles in new sizes ... Aug. 162
Speed, South Carolina weavers increase machine ... June 51
Supervisory practices compare in different mills, How ... Feb. 55
Trains weavers fast and well, Analytical training method ... Aug. 43
Warp tickets, Jig makes safety hook to hold loom ... Nov. 138
Waste yarn, Georgia slashing men reduce ... Jan. 62
Weaving (at Milan Show) ... Nov. 61
Weaving machine, Four-color ... Sept. 185
Weaving – modernization 1959 ... Oct. 54
Weaving, Quality control in ... Feb. 70
Wide denims, Avondale changes machinery to produce ... Mar. 66
Upholstery fabrics on a big scale at Bartson, Weaving ... Sept. 52
Yards of woven cloth, Predetermine ... Mid-July 45

Cotton winding
Bobbin counter for spoolers ... Oct. 121
Bunch builder reduces broken picks 95% ... Dec. 110
Cone winder ... Aug. 144
Drum-roll brush cleaner, Spooler blower operates ... Sept. 175
Ends down at the spooler, How Woodside reduced ... Apr. 62
Knitting Arts Exhibition, 1959 ... June 47
Loom winders, Georgia weave-room men give results with ... Jan. 54
Porcelains on winding machines, Tape saves ... Mar. 123
Preventive maintenance cuts cost at spooler and warper ... June 49
Production on filling winders, How to calculate ... Mid-July 40
Spooling, Fuzzy yarn and bad build cause trouble at ... May 20
Spends $1-million to gain new markets, Fulton ... Dec. 56
Twisting and winding (at Milan Show) ... Nov. 59
Winder fixer, Numbered spindles save time for ... Oct. 106
Yardage graph for cheeses ... Mid-July 39
Yarn-conditioning attachment ... Mar. 138

Synthetics finishing
Acrylic-fiber fabrics, Presetting stabilizes ... Nov. 85
Bleaching, What's new in ... Nov. 97

Blends, Fibers migrate during finishing of — Feb. 73
Finishes powernet fabrics, How Best Dyeing Co. — June 78
Finishing — modernization 1959 — Oct. 73
Glass fabrics, How Flightex finishes industrial — May 74
Hand, Swell nylon to improve — July 63
Hydrogen-peroxide bleaching — Mid-July 110
Lace-scouring time cut 30% with the right yarn finish — Jan. 76
Metallic-yarn wet-processing guide — Mid-July 124
Nappers work — and how to work them, How — Mid-July 115
Polyester fibers, Surface treatment improves — Apr. 85
Polyethylene yarn, How mills weave — June 54
Resin finishes, Effect of curing conditions on — Mid-July 118
Resins are deposited in fabric, How — Nov. 93
Rethread time, Feeler and mercury switch cut down — Mar. 126
Shear, High-speed — Mar. 146

Synthetics picking
Picker laps, Air cylinder pulls pins from — Apr. 176

Synthetics printing
Aniline black, Tips on printing — Mid-July 114
Crocking, How to forestall — Dec. 102
Metallic powders, Tips on printing with — June 73
Pigment-printing methods, Apply vats by — Dec. 69
Pigment-printing system, How to choose a — Aug. 71
Pigment prints, Reactive binders improve — Sept. 115
Print-shop production, How Carlisle Finishing Co. checks — June 98
Screen printers, Automatic (at Milan Show) — Nov. 65
Screen-printing machine — July 125
Screen prints, How Gsell Printing Co. produces — Apr. 114
Soluble-vat prints, Brighter — July 63
Triacetate printing, New assistants aid — Aug. 61
Vigoureux printing, How to get best results from — July 76

Synthetics roving
Roving frame, Improved — May 146

Synthetics spinning
Change-over, Drafting — Dec. 130
Change-over for Z-spinning — Aug. 142
Direct spinning frames (at Milan Show) — Nov. 58
Doffer, Automatic frame — Aug. 149
Doffing machine, Automatic — May 145
Long-fiber spinning frame — Apr. 141
Napper waste is hard to spin — Mar. 20
Spinning (at Milan Show) — Nov. 58
Spinning cam — Apr. 154
Spinning-twist contraction — table for determining draft change gears — Mid-July 37
Spun-rayon yarns, Effect of twist on — Mid-July 40
Top roll arm, Spinning — Apr. 148
Traveler weights, How to calculate — Jan. 64
Variation in yarn, Roll slippage causes — Sept. 51

Synthetics throwing
Glass faurics, How Flightex throws and weaves industrial — May 62
Textureu-yarn production is increased at Belmont — Sept. 60

Synthetics twisting
Rubber-thread machine — Nov. 158
Traveler weights, How to calculate — Jan. 64
Twister — Feb. 102
Twisting and winding (at Milan Show) — Nov. 59

Synthetics warp preparation and beaming
Filament yarn, Slashing — Mid-July 42
Slack warper ends, Friction-base oil at picker reduces — Jan. 22
Slasher comb, Rayon warps run smoothly through tilted — June 120
Slasher, Cylinder or hot-air — Oct. 124
Slasher downtime, Enka's new slasher controls record — May 66
Slasher, High-speed — June 134
Slasher squeeze-roll cover — Aug. 144
Slasher, Three-unit — Sept. 188
Slashers, Checklist for — Mid-July 41
Slashing — modernization 1959 — Oct. 53
Slashing newest glass fibers, Formula for — Nov. 20
Tensions are a new idea in warping, Electromagnetic — Mar. 59
Tricot-beam laps, Broom handle collects ends to remove — Jan. 85
Warp size, Cationic-starch — May 148
Warper and creel — Jan. 102
Warping, Arrange tricot yarns for easy — Jan. 85

Synthetics weaving
Bobbin transfer arm prevents damage at loom, Altered — May 126
Break-outs weave in, Removing stop-motion wires lets — Mar. 124
Breastbeam boards to remove them quickly, Cut loom — Feb. 92
Chains, New fabrics on box looms are made with short — May 121
Creases, Rubber strips in cloth roll eliminate fabric — Nov. 136
Dobbies, Paper control for — Mar. 140
Dobby chains with a sheet-metal guard, Protect — Feb. 90
Dobby for pile fabrics — Jan. 100
Fabric designs, Pointers for correcting — Apr. 64
False stops, Extension for loom magazine eliminates — Sept. 178
Four-color-filling loom — Mar. 146
Glass fabrics, How Flightex throws and weaves industrial — May 62
Harness stands under loom help prevent break-outs — Feb. 89
Jacquard designs, Electronics at weaving mill punches — June 59
Loom winder, Yarn guides for — Oct. 128
Nub filling, Grind shuttle-eye slots to weave — Apr. 135
Pickers, Increase the life of loom — Mid-July 43
Polyethylene yarn, How mills weave — June 54
Shuttles in new sizes — Aug. 162
Supervisory practices compare in different mills, How — Feb. 55
Trains weavers fast and well, Analytical training method — Aug. 43
Weaving (at Milan Show) — Nov. 61
Weaving machine, Four-color — Sept. 185
Weaving — modernization 1959 — Oct. 54
Yards of woven cloth, Predetermine — Mid-July 45

Synthetics winding
Breakage at quill winder, Piece of wire reduces — July 112
Cone winder — Aug. 144
Cone-winder tension gate — Dec. 130
Damaged cakes, Cut down old swift to run off — Mar. 124
Garnet paper picks up waste and reduces downtime — Aug. 136
Knitting Arts Exhibition, 1959 — June 47
Production on filling winders, how to calculate — Mid-July 40
Quiller to prevent loom stops, Reverse yarn at — Nov. 138
Skein winding, Use plastic tape for better — Feb. 91
Take-up machine — Jan. 132
Tension, Redraw — June 136
Thread guides for looms from rings of old bobbins, Make — Feb. 94
Winder, Fine-yarn — June 130
Yardage graph for cheeses — Mid-July 39
Yarn-conditioning attachment — Mar. 138

T

Textile Operating Executives of Georgia
Carders praise big laps and fast drawing, Georgia — July 57
Improve weaving with better work practices, Georgia mills — Dec. 59
Loom winders, Georgia weave-room men give results with — Jan. 54
Rolls and aprons feature Georgia spinning forum — July 58
Slashing practices, Georgia mills standardize for better — Dec. 62
Waste yarn, Georgia slashing men reduce — Jan. 62

Textiles (general)
Acid-resistant thread — Mar. 132
Aluminum-fabric clothing — Oct. 114
Automotive fabrics, 1959 a boom year for — Jan. 4
Autos, Spring sales surge under way in — May 3
Basic chemistry of dyes and dyeing, The
I. Color, raw materials, intermediates — Mar. 95
II. Acid dyes and premetallized acid dyes — Apr. 109

VII. Ingrain, azoic, and solvent-soluble dyes; pigments, brightening agents, etc. — Sept. 153
Boycotted by Arabs, U. S. textile firms — Mar. 8
Britain and Russia reach big trade agreement — July 9
British cotton mills begin scrapping and modernizing — Oct. 6
British textile industry rocked by drastic change — Mar. 5
Business should be 8% above 1958, 1959 textile business — Jan. 49
Business swings, Textile finishers in strong — Mar. 73
Case studies of mill improvement and modernization, 66 — Oct. 47
Committee to study textiles, Pres. Eisenhower appoints — June 9
Cotton-textile imports — the battle tempo steps up — Aug. 4
Czechs plan to increase textile-machinery output — Nov. 6
"Defense essentiality" ruling, OCDM declines to review — Feb. 7
Department stores ring up an 8% gain in 1959, U.S. — Apr. 6
Direct spinning — test frame at Coats & Clark shows considerable promise — Aug. 45
Doffing machine, Automatic — Apr. 9
Equipment, Shopping the world for — Nov. 47
European looms to be sold in the U.S., Two — Oct. 3
Europe's common market has world in a stir — June 4
Exhibitors at Milan textile show, Guide to — Aug. 100
Export quotas to U. S., Japanese increase — May 3
Exports to Britain, India and Pakistan to limit — Nov. 8
Fabric patterns by Frank Lloyd Wright — May 138
Farmers up, mills down in share of dollar — July 4
Fiber analyzer, Slide-rule — Mar. 162
Fiber identification, FTC issues rules for — July 43
Fiber preferences reported — Jan. 107
Fiber use hit 20-year low in 1958, Per-capita — May 6
Fire wall made of fabric — Sept. 170
Foreign loom and doffer move into U.S. market — July 7
German machinery producers find markets shrinking — Jan. 9
Home-Furnishings Show, At the Chicago — Feb. 109
Indian cloth consumption to rise to 20.3 yds — Oct. 6
Indian textile mills protest Euromat ban — Oct. 4
Information, New step in man-made-fiber — Sept. 49
Israel builds up its textile industry — Aug. 9
Italy's mill production above 1958, below 1957 — Oct. 7
Japanese export quotas — the battle goes on — Jan. 8
Japanese-imports quota triggers four-months fight — May 6
"Jet" loom now commercial — May 8
Korea to now, From — Mar. 49
Labeling Act rules, FTC moves ahead with — Mar. 6
Lighting levels, Newest — Mid-July 174
Machine advances, Red China radio claims fabulous — Apr. 7
Machinery builders, Business improves for — Sept. 4
Man-made-fiber table, Surge of new-fiber activity reflected in 1959 — Sept. 69
Man-made fibers take bigger slice of market — Sept. 69
Marker, Textile — May 176
Milan show brings out new equipment, big exhibits — Oct. 3
Milan show, The — Nov. 51
Milan textile show, The — Aug. 99
Migration, A new — June 45
Mill performance, How to measure and compare — Mid-July 8
Mill production hits six-year high — Sept. 3
Mill production reaches the 1955 high — July 3
Mill purchases: 1958: Mill spending off 4.5%; 1959: New High record? — Jan. 51
Modernization 1959 — Oct. 47
Paris collections, At the — Mar. 131
Pool cover — Mar. 132
Primary textile mills, California still trying for — Mar. 4
Profits may double 1958 profits, 1959 mill — Sept. 6
Profits soar above last year, First-quarter — June 8
Radiation may improve fibers — Nov. 83
Raincoat survey, Du Pont's — Mar. 132
Red China comes on fast as world's textile threat — Feb. 3
Red China exports four cotton mills — Aug. 9
Russia moves into Iraq — May 7
Russian plans call for textile increase, Latest — Oct. 4
Russian worker spends his money, How — Mar. 8
Russia's production up — June 9
Saco-Lowell to sell Picanol looms — Nov. 52
Saves cotton mill $52,000, All-out war on waste — Apr. 53
Sewing threads, Use type-E lubricant for — Feb. 24
Shuttleless loom, Maxbo — Aug. 141
Spend $321-million this year, Mills plan to — May 5
Steel replaces textile cord — Jan. 108
Supervisory practices compare in different mills, How — Feb. 55
Talk?, Is it only — May 49
Tension analysis — a new tool to solve many textile problems — Aug. 46
Textile cycle, The — Apr. 49
Textile production down 9% in Austria — Apr. 9
Textiles in autos clipped in new compact cars, Use of — Oct. 5
Tex — a new yarn-numbering system — Mid-July 25
Tire cord and fabric dropped 15% in 1958 — June 8
Tires use 10% less cord, Compact-car — Oct. 9
Union proposes program to help the textile industry — Jan. 4
Upholstery-fabric machine — Feb. 106
Upholstery fabrics on a big scale at Bartson, Weaving — Sept. 52
Upholstery fabrics, Versatility is needed to produce — Mar. 55
Wage increases, Another round of — Jan. 47
Wash-and-wear program — Jan. 108
What about 1960 and 1961? — July 41
World textile force, Euromart will be a — Feb. 6
World-trade battle, Textiles now have help in — Dec. 6
Yarn-numbering constants — Mid-July 22

Training
Clothe cards, How to (card-grinder training) — Sept. 56
Fixers learn job, Wooden spinning frame helps — Nov. 133
Improve weaving with better work practices, Georgia mills — Dec. 59
New training methods, Knitting mills use — Apr. 20
Selection and training, What mills say about — Feb. 58
Training method trains mender-burlers in 12 weeks, New — May 51
Trains weavers fast and well, Analytical training method — Aug. 43

Tufting
Dull knives, Defects at tufting machines are caused by — Mar. 22
Latex, What to look for in — July 93
Novelty yarn is used in tufted carpets — Apr. 20
Tufted textiles up 25% over 1958 — Nov. 7
Tufting machines are used, How — Mid-July 53
Tufting — modernization 1959 — Oct. 57

W

Water supply
Hits its stride, Carolina Yarn Processors — June 69
Water flow in standard steel pipelines, calculating — Mid-July 169

Wool (general)
Albany Felt Co. makes big move into Mexico — Mar. 8
Argentine wool surplus jumped sharply in 1958 — Apr. 4
Australia's wool clip will be second highest — June 4
Back-washing machine — Jan. 96
Selection and training, What mills say about — Feb. 58
Training method trains mender-burlers in 12 weeks, New — May 51
Wool imports cut-off point will drop this year — Apr. 6
Wool imports limited to 13.5-million lbs., 25% tariff — May 9
Wool improvement, New research center to study — Dec. 5
Wool price sought by Australia, More-stable — May 4
Woolen and worsteds declined in 1958 — July 6
World wool use down — Apr. 7

Wool bleaching
Hydrogen-peroxide bleaching — Mid-July 110

Wool blending
Blending with ultraviolet light, Check wool — May 22
Blends high-bulk Orlon with wool, How American Thread Co. — June 60
Opening, picking, blending — modernization 1959 — Oct. 48
Testing wool blends — Mid-July 26
Water-to-oil ratio is important in wool blending — Sept. 20
Wool-Dynel fabrics, Washable — Mar. 132

Wool carding
Carding (at Milan Show) — Nov. 53
Carding, combing, drawing, roving — modernization 1959 — Oct. 49
Don'ts for carders, Nine — Mid-July 28
Draft-gear table for cards — Mid-July 29
Jack spool, Wool-card — July 120
Noils, Carding fine wool — Mid-July 28
Production, Woolen-card — Mid-July 28
Settings on a woolen card, Fancy-to-cylinder — Mid-July 29
Static at woolen card, Ammonia keeps down — July 110

Wool combing
Lapping and combing (at Milan Show) ... Nov. 56
Top-making operations, Pinning details for various ... Mid-July 31

Wool drawing
Drawing-set balls, Clutch makes it easy to unwind ... Dec. 110
Inspect hidden roll, Mirror makes it easy to ... Sept. 182

Wool dyeing
Acid steaming improves wool dyeing ... Feb. 73
Basic chemistry of dyes and dyeing, The
I. Color, raw materials, intermediates ... Mar. 95
II. Acid dyes and premetallized acid dyes ... Apr. 109
III. Mordant dyes ... May 97
IV. Basic, disperse, and acid dyes ... June 91
V. Direct and sulphur dyes ... July 85

Fulling, Six ways to control fabric wrinkles at Machine, Finishing ... Nov. 22
Nappers work — and how to work them, How ... Dec. 128
Seersucker effect on wool ... Mid-July 115
Shear, High-speed ... Oct. 69
Shrinkproof wool, Use caustic soda to ... Mar. 146
Unshrinkable-wool finish, New ... Sept. 125
Wash-and-wear for wool ... May 71
Water repellents for wool, Cold-cure ... Apr. 87
Wool damage, Swelling test checks ... May 69
Wool-finishing machine ... Apr. 86
Wool shrinkage, New method to control ... Jan. 96
... Aug. 62

Wool picking
Oil flow visually to keep stock conditioned, Check ... Oct. 107

Wool printing
Aniline black, Tips on printing ... Mid-July 114
Pigment-printing system, How to choose a ... Aug. 71
Pigment prints, Reactive binders improve ... Sept. 115
Vigoureux printing, How to get best results from ... July 76
Vigoureux printing, Solvents speed up ... Mid-July 114

Wool roving
Roving (at Milan Show) ... Nov. 57

Wool scouring
Apron, Scouring ... June 154
Wool waste water, Acid cracking treatment for ... Mid-July 112

Wool spinning
American-system spinning frame ... Dec. 125
Bobbin-filling time for worsted yarns, Delivery rate and ... Mid-July 37
Downtime, Harding Yarns uses recorder to measure ... Apr. 63
Frame, Woolen spinning ... Feb. 100
Handspun effects in yarn, Here's how to produce ... Apr. 136
Jack spool, Improved ... Oct. 126
Long-fiber spinning frame ... Apr. 141
Press-roll grooves, How to eliminate ... Apr. 137
Spinning at Argonne ... Dec. 50
Spinning (at Milan Show) ... Nov. 58
Spinning frame, Woolen ... Mar. 138
Spinning — modernization 1959 ... Oct. 51
Spinning-twist contraction — table for determining draft change gears ... Mid-July 37
Variation in yarn, Roll slippage causes ... Sept. 51
Variation, Standard values of coefficient of ... Mid-July 38

Wool twisting
Assembly winding cuts out snarls at twisting ... Aug. 138
Twister ... Feb. 102

Wool weaving
Dobbies, Paper control for ... Mar. 140
Dobby for pile fabrics ... Jan. 100
Fabric designs, Pointers for correcting ... Apr. 64
Harness stands under loom help prevent break-outs ... Feb. 89
Jacquard designs, Electronics at weaving mill punches ... June 59
Lightweight suiting, Check your loom let-offs to weave ... Dec. 52
Pickers, Increase the life of loom ... Mid-July 43
Replacement cost, Aluminum part on W-3 loom reduces ... Feb. 89
Supervisory practices compare in different mills, How ... Feb. 55
Trains weavers fast and well, Analytical training method ... Aug. 43
Weaving at Mayflower, Lightweight men's wear ... Dec. 51
Weaving (at Milan Show) ... Nov. 61
Woven-carpet mill reaches peak efficiency, Modern ... July 54
Yards of woven cloth, Predetermine ... Mid-July 45

Wool winding
Knitting Arts Exhibition, 1959 ... June 47
Surplus yarn, Here's a simple way to rewind ... Feb. 89
Twisting and winding (at Milan Show) ... Nov. 59

INDEX TO AUTHORS

A

ALDRICH, WILLIAM E., Lace-scouring time cut 30% with the right yarn finish ... Jan. 76
ANDREWS, FREDERICK R. and JAMES N. GRANT, Ginning on chemically treated fabrics, Effect of ... Aug. 51
ASHMORE, WILLIAM G., Man-Made-Fiber Table, 1959 ... Sept. 69

B

BAILEY, BILL, Tension analysis — a new tool to solve many textile problems ... Aug. 46
BECKNER, ERNEST R., Picker-lap variation, Charts help control ... Sept. 62
BERKOL, ROLAND J., Stainless steel, How to get the most out of your ... Nov. 187
BOGDAN, J. F.; HENRY K. C. WOO; and C. H. PAN, Comber settings reduce noils 2.6%, NCS ... July 48
BOGGS, ROY H., Latex, What to look for in ... July 93
BOLLINGER, GEORGE R., Matte-finish metal cuts fiber friction 50% ... Mar. 64
BROWN, R. S. and A. S. MILLER, Granular card operates without revolving flats ... July 45
BROWNSTEIN, HERBERT, Sewing defects, Check-list for inspectors reduces ... Aug. 56
BURGESS, ROBERT L., Vat dyes for union shades on Zefran-cotton blends, Use ... Nov. 99

C

CAMPBELL, PROF. KENNETH S., Preparation and bleaching
1. The cotton fiber ... Apr. 97
2. How fiber structure affects processing ... May 83
3. Sizing materials and how removed ... June 82
4. Action of enzymes on sizes ... July 73
5. How preparation methods developed ... Aug. 74
6. The scouring process ... Sept. 131
7. Principal bleaching materials and methods ... Dec. 85
CHANCE, L. H., C. J. CONNOR, and W. A. REEVES, Water repellency, Silicone alloys improve ... Nov. 93
CHANCE, LEON H., WILSON A. REEVES, and RITA M. PERKINS, Cross-linking, Fiber swelling affects degree of ... Nov. 87
CONNOR, C. J., W. A. REEVES, and L. H. CHANCE, Water repellency, Silicone alloys improve ... Nov. 93
CROSS, M. A., Bad news, Giving 'em the ... Nov. 131
Blind spots? What are your ... Feb. 87
Incentive system work, Help make the ... Aug. 129
Listening, The art of ... May 119

D

DAGVAULT, JACK, and RALPH E. LACY, Dyeing Arnel blended with Orlon, Acrilan, or cotton, Methods for ... Nov. 101
DAVIDSON, M., Downtime, Harding Yarns uses recorder to measure ... Apr. 63
DUERST, JOHN, Traveler weights, How to calculate ... Jan. 64

E

EASTON, BERNARD K., Bleaching, What's new in ... Nov. 97

F

FAIR, ERNEST W., Fires, Newest research shows what causes plant ... Apr. 58
FIORI, LOUIS A., GAIN L. LOUIS, and JACK E. SANDS, Cottons can be blended successfully, Coarse and fine ... Aug. 53
FIORI, LOUIS A., DOROTHY C. LEGENDRE, and JOHN D. TALLANT, Short fibers are harmful to yarn and fabric ... Aug. 52

G

GALLIGAN, JOHN, and ARNOLD M. SOOKNE, Epoxy resins show improved effects, New ... Nov. 91
GALLOWAY, G. P., SRRL card reduces waste, Avondale tests show ... July 46
GARDNER, JAMES E., Employee satisfaction, The supervisor and ... Sept. 173
Motivational approach to safety, The ... June 105
GARRETT, DAVID L., Fabric designs, Pointers for correcting ... Apr. 64
GERDES, F. L., Mid-South cotton, 1958 ... Feb. 63
1958 cotton, What you can expect from ... Mar. 56
Rio Grande produces good crop of 1959 cotton ... Nov. 70
Southeastern cotton has good average qualities, 1958 ... Jan. 63
GILBERT, HAL, Lint problem in central-station air washers, Chicopee solves ... June 50
GRANT, JAMES N. and FREDERICK R. ANDREWS, Ginning on chemically treated fabrics, Effect of ... Aug. 51

H

HALL, A. J., Shrinkproof wool, Use caustic soda to ... Sept. 125
HART, L. E., Spindle-oiling cost, How one mill reduced ... May 63
HERBOLSHEIMER, E., S. STAPF, and H. RATH, Resins are deposited in fabric, How ... Nov. 93
HOWE, DAVID E. and JOE F. MATTISON, Fiber variation, Massive cotton blending reduces ... July 47

I

IANNARONE, J. J., and W. J. WYGAND, Thermosol process works for Dacron-cotton blends, How the ... Nov. 99
IRVINE, J. B., Knitted-fabric performance, Chemical stabilization improves ... Nov. 91

K

KOCH, LAURENCE, Hosiery length, Seven-point program controls ... Sept. 64

L

LACY, RALPH E., and JACK DAGVAULT, Dyeing Arnel blended with Orlon, Acrilan, or cotton, Methods for ... Nov. 101
LEGENDRE, DOROTHY C., JOHN D. TALLANT, and LOUIS A. FIORI, Short fibers are harmful to yarn and fabric ... Aug. 52
LIVINGSTONE, F. C., Man-made-fiber dyeing, British score gains in ... Apr. 89
LOUIS, GAIN L., JACK E. SANDS, and LOUIS A. FIORI, Cottons can be blended successfully, Coarse and fine ... Aug. 53

M

MACKAY, MALCOLM, Aniline black successfully, How to print ... Jan. 73
Crocking, How to forestall ... Dec. 102
Flannels, How to print cotton ... Mar. 83
Metallic powders, Tips on printing with ... June 73
Pigment-printing system, How to choose a ... Aug. 71
MATTISON, JOE F. and DAVID E. HOWE, Fiber variation, Massive cotton blending reduces ... July 47
MILLER, A. S. and R. S. BROWN, Granular card operates without revolving flats ... July 45

P

PAN, C. H.; J. F. BOGDAN; and HENRY K. C. WOO, Comber settings reduce noils 2.6%, NCS ... July 48
PERKINS, RITA M., LEON H. CHANCE, and WILSON A. REEVES, Cross-linking, Fiber swelling affects degree of ... Nov. 87
POMFRET, N. H., Blend at drawing on the cotton system, How to ... May 56
Calculations are easy with these tables, Card-room ... June 56
Variation in yarn, Roll slippage causes ... Sept. 51
POSTMAN, WILLIAM, Ph.D., Basic chemistry of dyes and dyeing, The
I. Color, raw materials, intermediates ... Mar. 95
II. Acid dyes and premetallized acid dyes ... Apr. 109
III. Mordant dyes ... May 97
IV. Basic, disperse, and natural dyes ... June 91
V. Direct and sulfur dyes ... July 85
VI. Vat dyes ... Aug. 85
VII. Ingrain, azoic, and solvent-soluble fyes; pigments, brightening agents, etc. ... Sept. 153
PRESSLEY, RICHARD B., Lightweight suiting, Check your loom let-offs to weave ... Dec. 52

R

RATH, H., E. HERBOLSHEIMER, and S. STAPF, Resins are deposited in fabric, How ... Nov. 93
REEVES, WILSON A., RITA M. PERKINS, and LEON H. CHANCE, Cross-linking, Fiber swelling affects degree of ... Nov. 87
REEVES, W. A., L. H. CHANCE, and C. J. CONNOR, Water repellency, Silicone alloys improve ... Nov. 93
ROBERTS, S. B., Building-material costs for plant construction ... Nov. 68
ROSS, JOHN E., Overginned cotton increases labor and processing costs ... Aug. 50

S

SANDS, JACK E., LOUIS A. FIORI, and GAIN L. LOUIS, Cottons can be blended successfully, Coarse and fine ... Aug. 53
SAXL, VICTOR, Blends high-bulk Orlon with wool, How American Thread Co. ... June 60
Man-made fibers and blends, How Mohawk Mills processes ... Jan. 53
Markets for old fabrics, New ... Mar. 85
SHAW, B. RAY, Fabric-inventory problem, Van Raalte solves a ... Apr. 56
SOOKNE, ARNOLD M., and JOHN GALLIGAN, Epoxy resins show improved effects, New ... Nov. 91
STAPF, S., H. RATH, and E. HERBOLSHEIMER, Resins are deposited in fabric, How ... Nov. 93

T

TALLANT, JOHN D., LOUIS A. FIORI, and DOROTHY C. LEGENDRE, Short fibers are harmful to yarn and fabric ... Aug. 52
TANSEY, ADAM, Main-cylinder bearings — rework or replace? ... Feb. 66
TESORO, GIULIANA C., Cross-link theory, Quantitative method proves ... Nov. 89
THOMAS, P. M., Equipment, Shopping the world for ... Nov. 47
"Give-it-awayers" again, The ... Aug. 39
Information, New step in man-made-fiber ... Sept. 49
Korea to now, From ... Mar. 49
Migration, A new ... June 45
Milan show, The ... Nov. 51
Next twelve months, The ... Oct. 45
Production, Time to cut ... Dec. 47
Supervision: the future pay-off ... Feb. 45
Talk?, Is it only ... May 49
Textile cycle, The ... Apr. 49
Wage increases, Another round of ... Jan. 47
What about 1960 and 1961? ... July 41

U

URIS, AUREN, Change, Easing the pain of ... Apr. 133
Safety, Your stake in ... Jan. 83
Success, How to use ... Dec. 105
"What's in it for me?" ... July 103

W

WATKINS, RICHARD, Ends down the easy way, Count ... June 52
WEAVER, PETER, Nylon tricot, How Vitos de Mexico sets and dyes ... Feb. 84
WHITFIELD, JAMES, Defects, Narrow-fabric checklist prevents six major ... May 60
WILLIAMS, S. G., Hear with your mind, You ... Oct. 103
What you are versus what you do ... Mar. 119
WOO, HENRY K. C.; C. H. PAN; and J. F. BOGDAN, Comber settings reduce noils 2.6%, NCS ... July 48
WOO, HENRY K. C., Predict ends down from small-lot tests, How to ... Mar. 63
WYGAND, W. J., and J. J. IANNARONE, Thermosol process works for Dacron-cotton blends, How the ... Nov. 99
